Reason why this Machine is Universally Preferred over All Others.

1 Because it is the only Sewing Machine in the world ever invented, so constructed as to fully meet the demands of families for general

2 It is very simple and is cover liable to get out of order. 3 It makes a seam which will not rip, though every third stitch is cut.

4 It is not a Shuttle Machine. 5 It sews with two needles, making any length stitch desired. 6 It sews from two ordinary spools, and thus all trouble at winding thread is avoided;

while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work. 7 The same Machine runs silk or linen thread, and common spool cotton, with equal

8 This Machine will sew in the sleeves of a coat with the same ease and facility that it sews a straight seam. 9 This Machine can be run to make one

thousand five hundred stitches per minute. 10 The seams are as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing or otherwise, 11 The stickes made by this machine are more beautiful than any other made either by hand or machine.

The price of these Machines at office in New York, range from \$75 to \$150; an additional charge of \$10 only is made on each machine over New York prices at office in Nashville, to defray expenses of importation, &c., to Nash-ville. R. H. BROCKWAY, Sec'y., Nashville Sewing Machine Company.

PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Termessee W. F. CHILDS & CO.'S PATENT ELAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every ctimate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to ta surability, there is no question.

It is practically imperishable, and will perfectfully resis any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will enuse to put our Roofing on over ordinary good heathing

old shindes, tar and gravel, tin, nine, capper, or iron roof
—it making no difference how steep or flat they may be for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it It will also be found to be the best tring ever invented to cover or mend old leaky tra, tar and gravel roofs, or around chimneys, souttles, dormar windows, and gutters, where the tin is rust d through. This Coment can be put on to last

as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two d liars and fifty cents per hundred square feet, which is cheaper and much bet-ier than paint. This Roofing will be found to be the best theng for cover ng large Boofs where they are exposed to fir —such as S cam Mills, Saw Mils, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamhout Decks, and, in fact, every kind of Roof where there is an external sposure from fire. As the Roof is perfect, without a join in it, it presents no chance for fire to communicate, and any light sub-tance will burn out without igniting.

Insurance Odices at Communiti, and other places where Child. & Co.'s Ce nent has been used, insure Buildings with Roofs opered with this Cement, at the same

The Cement will be fur ished to those at a distance with directions for using.

Orders tent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST, No. 24, Spruce Street.

S. N. PIKE'S MAGNOLIA WHISKY

CINCINNATI, OHIO. THE UNDERSIGNED, manufacturer and s le proprietor of the above brand of WHISKY, would respectfully inform his customers and pur charers of this celebrated brand, that there has appeared in chasers of this celebrated trand, that there has appeared in the Charleston and other Southern markets a counterfeit of the above Whisky, being a poisonous imitation, he anded similar to his brand; it passes under the name of S. Dike, it is intended to impose and deceive those who would jurchase the genuine brand. I make this statement to put parties on their guard, as there are several persons in the cast and west making an imitation, and using my name with a slight a teration. I have analyzed several samples of this counterfeit brand, and found that it contains a deadly poison; this fact alone impels me to caution the public, protect those who are liable to be 'eccived, and prevent the evil results attending the use of this poisonous imitation. I also hereby caution the counterfeiters of my brand that I will prosecute them to the full extent of the law. The genuine S. N.
